JUNIOR WEB DEVELOPER PROFILE

Progressive experience in software engineering, full stack web development, and project management

Solutions-focused and enthusiastic professional with expertise in writing structured codes and developing scalable web applications using WordPress CMS, ReactJS, React Native, and GraphQL. Capability to employ collaborative development methodologies to deliver breakthrough technologies and ensure optimal performance on complex projects and technical initiatives. Adept at implementing innovative digital concepts, transforming users' requirements into software specifications, and diagnosing bugs to improve code reliability. Expert in collaborating with technical teams and scheduling tasks to finalize simultaneous projects within scope and time.

*Frontend and Backend Development / Project Planning and Execution / DRY Principle / Web Hosting
Relationship Management / Exceptional Communication Skills / Development Team Collaboration*

EDUCATION

Full Stack Web Developer Diploma Bootcamp | RED Academy, Toronto, Canada, In Progress

Elixir, Erlang, and Phoenix Certifications | Udemy

BSc in Chemistry, Distinction | University at Buffalo, Buffalo, New York

TECHNICAL PROFICIENCIES

Front & Back-End Tools: HTML5, CSS (SASS), JavaScript, PHP, Figma, Adobe Xd, Photoshop, GraphQL, PostgreSQL, WP REST API, Express.js, Node.js, MAMP/WAMP (MySQL, Apache), Git, GitHub, GitLab

Frameworks: ReactJS, React Native, WordPress, jQuery, Responsive Web Design, MVC

Package Manager: Gulp, parcel, yarn, npm (expo-cli)

Operating System: Windows 10, Apple iOS, Android OS

EXPERIENCE HIGHLIGHT

Full Stack Application Developer (2019 – Present)

Silly Walker (Aids Free World-CAVIA)

Develop an app for non-profit organization using React Native, NodeJS, Express, GraphQL, and PostgreSQL to facilitate women in danger within Africa. Implement effective programming practices to create efficient source code and improve operational efficiency.

- Plan and execute full stack development project from initial requirement gathering to final delivery while completing deliverables within strict time, quality, and budget constraints.

Accessible Vehicle Operator (2009 – 2019)

TTC Wheel-Trans (Accessible) Operator / CO-OP Taxi, Toronto, ON

Provided a door-to-door safe and comfortable transport service to people with disability primarily visual impaired, leveraging knowledge of Ontario AODA (Accessibility for Ontarians with Disabilities Act)

- Delivered exceptional customer service to build positive rapport with clients, ensure repeat business, and expand clientele.

Prior experience as Chemistry and Math Tutor, Research Chemist, Assistant Production Coordinator, and Administrative Assistant.

SOFTWARE DEVELOPMENT EXPERIENCE

- Completed website development and implementation client project for **BeAwesome Shoppe** using WordPress CMS.
- Designed mobile App from scratch in iOS / Android using React Native with Expo CLI (front-end), GraphQL, PostgreSQL, express.js, and node.js (back-end), while implementing JWT Authentication.
- Collaborated with developers / designers to ensure efficiency and effectiveness of product designs using MVC pattern.
- Designed and deployed a website using WordPress, PHP, HTML5, CSS3, JS, Sass, Gulp, and MAMP/WAMP by following DRY principle while ensuring full compliance with regulatory web development and security standards.
- Configured and administered GitHub (Version Control) repository to maintain regular engagement with developers / designers. Identified and resolved critical coding errors utilizing multiple browser debugging tools.
- Built responsive design websites with a mobile-first approach, using HTML5, CSS3, JavaScript, WordPress, PHP as well as made an API call by utilizing Ajax, JSON, REST API, jQuery, and React.
